C. P. R. Freight Clerks and Baggage Men Out On Strike

A large percentage of the clerks and men in the freight department of the C.P.R. went out on strike Monday evening. The strike affects the whole system of the railway throughout Canada, and includes clerks, checkers, yard office men and baggage men.

The strikers aver that the main points in connection with the strike are recognition of the Canadian Union, of which they are a branch, and an increase in wages.

The wage question is probably the vital point. The men say that the wage works out at 22 cents per hour, and they want it raised to 25 cents. Some of the baggage men are paid at the rate of 17 cents per hour, and have to work eleven hours week days and seven hours on Sunday. It does not appear that every man belonging to the Union is out, although it is hard to tell at the present state of things. The men also aver that they asked Sir Thomas Shaughnessy, President of the Company, to grant them a Conciliation Board to adjust the differences, but that it was refused. In Red Deer, the conditions are not serious, and as far as is known only nine men are directly affected. The trains here are pulling out on time, and nothing left behind. The train master, assisted by one of the clerks, is looking after the passengers' baggage. The railway officials say they have no difficulty in getting necessary hands to do the work. They also claim that the schedule put forward by the men is even less than the present rate wages, as clerks' wages are at present from \$75 to \$125, and the new schedule calls for \$78 to \$100.

Wedding Bells

A very interesting wedding took place at St. Luke's Church on Saturday, November 2nd, the principal parties being Henry Ludwig, Professor of the Normal School at Calgary, and Miss Katie Patterson of Leslieville. There was quite a number of friends of both the bridegroom and bride present. Miss Patterson was given away by her mother, Mrs. Patterson, and the groom was attended by Mr. Boyce, Inspector of Schools, and Mr. A. G. Gibson, B.A. The Rev. C. W. G. Moore was the officiating minister.

WEDDING AT CLEARVIEW.

A very happy event took place on Wednesday afternoon at Clearview farm, Clearview, the residence of Mr. and Mrs. Chris. White, when their eldest daughter, Miss Marion, was united in marriage to Mr. Ed. Dellow, of Coronation. A large gathering of relatives and friends were present to do honor to the occasion, and the bride's entry was greeted with the jubilant strains of the Wedding March from Lohengrin. She was charmingly attired in cream silk, trimmed with lace and silk, and carried a shower bouquet of pink carnations. She was attended by her sister, Miss Beatrice White, who was prettily dressed in white silk, trimmed with pale blue silk and lace. Mr. James Dellow was best man. Rev. F. W. Locke, of Lacourse, performed the ceremony. The guests were most sumptuously entertained by the hostess and family, and the newly married couple departed on the northbound train with congratulations and best wishes from a host of friends. The bride's travelling costume was of fawn colored broadcloth, trimmed with pale blue velvet and white picture hat.

The bride was handsomely remembered by many beautiful gifts including a purse of money from the groom, and a silver tea service from her parents. The groom's gift to the bridesmaid was a gold brooch.

Chicken Ranch For Red Deer

E. C. Denham, of Leslieville, has purchased ten acres of land from the Cunningham Land Co., one mile east of the river bridge, for a chicken ranch. Mr. Denham is in town and hopes to have his house and all arrangements for his pens, etc., fixed before Xmas. The incubators are already on the road, and he fully expects to have his first batch of chickens by Feb. 13. He intends making Silver Wyandottes his main breed of fowl. In addition to the chickens, he will go in for rearing turkeys, geese and ducks.

BIRTH

In Calgary, on Tuesday, October 29th, to Mr. and Mrs. F. G. Carr, a daughter.

Balance of our children's velvet and heavier skin bonnets for \$50. Only a few left.—M. Jarvis.

Wanted—100 Oddfellows and Masons to buy P. K. Griffin a picture to frame.

Mixed Farming Special Train

Exhibit at Red Deer on November 11th

Red Deer is to receive more attention from the Mixed Farming Special Train than any other point in the province. This train, which consists of nine cars, including two carloads of cattle, horses, and sheep and a carload of poultry, in addition to a car devoted to dairying, weeds, grains and grasses, is touring the province under the conduct of the Department of Agriculture, in cooperation with the Dominion government and the railway companies. A corps of twelve lecturers will accompany the train, including a lecturer on domestic science, Miss Stiven, whose lecture should prove of great interest to women, though a good many households would profit thereby. In the stock cars are two Percherons from the farm of J. B. Drury, Cowley, Alta.; J. J. Richards, a well known stock raiser, and other breeders have stock on the train.

The C.P.R. has furnished the equipment of the train; it has done more than that—it has loaned the services of two expert members of its staff. Professor W. J. Allott, Superintendent of Natural Resources, in the Department of Natural Resources, and Dr. J. G. Rutherford, C.M.G., Superintendent of Animal Husbandry and late Chief Veterinary, a more experienced and all round authority on live stock than whom it would perhaps be impossible to find in the whole of Canada. Travelling with the party are George Harcourt, Deputy Minister of Agriculture; C. E. Lewis, Provincial Superintendent of Pairs and Incubators; H. A. Craig, Superintendent of Demonstration Farms; W. F. Stevens, Provincial Live Stock Commissioner; A. McKenna, Provincial Weed Inspector; C. P. Marker, Provincial Dairy Commissioner; A. W. Foley, Provincial Poultry Commissioner, and Miss G. Stiven, Graduate of Macdonald Institute, Guelph, lecturer in domestic science, and also three well known cattle men, Alcock (talker of Wisconsin), John Turner of Calgary, and Sidney Carlyle of Chesterdale, Ont., who have come by special invitation of the Alberta government.

The train pulls into the siding, the stock is taken out—for this travelling agricultural college carries its own object lessons with it—into the yards and then it is a case of all gather round for a direct, practical talk. The lecturer keeps his pipe in one hand, and sticks the other in his trousers pocket, the while he talks to his audience in language they can follow. That the audience do follow him is proved by the quick fusillade of questions which begins as soon as he stops; at times lengthy arguments have to be interrupted by cause another speaker has to begin.

Be sure and come to town on November 11th and take part in the lectures. See ad. in another column.

Serious Runaway Accident

On Saturday last a serious accident was caused through a runaway team employed by the town authorities. The team was in charge of Pres. Combs, and was evidently frightened by the blowing of a train whistle. Combs and Millman, who were on the vacant, were thrown violently to the ground and seriously injured. It was at first reported that one of the men was killed, but happily this was not so, although the man was badly battered. Combs and Millman are both in the hospital and doing fairly well. Combs had his forehead and eye badly cut and bruised and a broken leg, and Millman is cut and bruised, and also has a broken shoulder.

Red Deer Selected For District Headquarters For R.N.W.M.P.

That Red Deer is considered by the Government to become a very important centre is shown by the fact that it has been selected for the headquarters for a detachment of the R. N. W. M. P., consisting of an Inspector, three Constables, and five horses. The officer in charge of this detachment will have all the posts in this district under his care, and it will allow him to carry out the necessary work of police duties much more promptly than has before been the case. It is expected that Inspector MacDonald, formerly of the Yukon, will be commanding officer here, and that fact will assure Red Deer district of good service. A house has already been secured for the commanding officer and negotiations are also being carried on for a suitable place for the men and horses.

For next two or three weeks we will clear out a number of our felt, velvet and heavier hats, trimmed and untrimmed. Only a few leavers left, these are going at bargain prices.—M. Jarvis.

Local Object Lesson In the Expenditure Of Public Money

The farmers in and around Red Deer are having a good deal of quietude, as well as a valuable instance of instruction, in the Government's method of expending public money on telephone construction. It appears that in connection with the construction of a line south east of town, it is the custom of the gang to leave the tents about seven in the morning or a little later, arrive by team at a walking pace that would hardly do credit to a cost-monger's donkey, at the place of construction, and then, after a few miles distant, somewhere about nine or nine-thirty, proceed leisurely to work for about an hour and a half, then climb aboard the hand wagon and, at the same speed or therabouts, proceed to the place where the cook and the cook's hold-overs are, replenish the weary and haggard workmen, return to the scene of daily toil, until early evening and then to camp and leisure. No wonder the telephone is a costly department in our public expenditures, no wonder that there is some talk of raising operation over a field as wide as Alberta, and then figure what we are getting out of the money expended. Any business other than a public business run in this fashion would go to the howl soon in no time, but this is public business, and if ends don't exactly meet, why the dear public will stand a tighter squeeze. Premier Sifton explained with much glee last session that from this department he had a surplus of over \$600,000. How a surplus can be claimed when nothing is charged for depreciation of equipment is a puzzle, but granting that the surplus was a real one, the question remains what would it be if the method of construction were carried out with proper regard for economy of public money. The farmers who are keeping an eye on this kind of thing around Red Deer do not need to be told that if they ran their own business in any such way they would soon be in the bankrupt class, they know that quite well.

Eckville

Rev. E. G. Heaven has left to continue his studies at Huron College. His many friends will miss him.

R. Lawrence is hauling lumber for his building, which will have a fifty foot frontage.

The cut of the Patterson mill will be finished this week. Bagley & Sons have still a quantity of lumber piled at the track, waiting for cars. Mr. Matchett is erecting a fine residence on his farm.

A party went to Melita last Friday for the C.P.R. staff dance. They report a good time.

Every seat in the Lyric Theatre should be occupied on Thursday night, Oct. 7th, which would demonstrate your appreciation of the better class of entertainment, that is to say, educational and refining as well as very amusing. The Metropolitan Ladies' Orchestra can and will prove themselves worthy your most hearty applause.—DeWard's Babcock. Reserved seats now on sale at Farmer's Drug Store.

SEALED TENDERS

addressed to the undersigned, and endorsed "Tender for Examining Warehouse, Calgary, Alberta," will be received at Mr. Matthews' office, on Friday, November 15th, 1912, for construction of the building mentioned. Plans, specifications and form of contract can be seen and forms of tender obtained at the offices of Mr. H. E. Matthews, Superintendent of Buildings in the Province of Manitoba, Winnipeg, Man., Mr. W. T. Mollard, Clerk of Works, Regina, Sask., at the Post Office, Calgary, Alberta, and at this Department.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures, stating the occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to the sum of \$10 per cent of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender is not accepted the cheque will be returned. The Department does not bind itself to accept the highest or any tender.

By order,
R. C. DESROCHERS,
Secretary.
Department of Public Works,
Ottawa, October 31, 1912.
Newspapers will not be paid for this advertisement if they insert it without authority from the Department.—27748.

Pathfinder Tells Story of Long Trip

First Attempt to Cross Canada by Auto a Success—National Interest Shown in Good Roads.

By Thomas W. Wilby (Canada's first Ocean-to-Ocean Motorist).

The Canadian Highway is a fact! Out of the haze of dreams, out of the realm of visions, the Canadian Highway emerges, proved feasible on the first attempt at a transcontinental journey.

The tour officially ended at Victoria on October 18, on the return from the west coast of Vancouver Island, when a banquet was given to Mr. Wilby by the president of the Automobile Association, Mr. A. E. Todd, and at which Mayor Beak, with W. W. Foster, Deputy Minister of Works, and other leading citizens were present.

The actual tour from coast to coast occupied forty-nine days elapsed time, the start having been made from Halifax about four o'clock in the afternoon, and the arrival at Vancouver, by a coincidence, was made at the same hour and under the same weather conditions. The actual running time was forty-one days and the mileage was 3,900 miles, which gives an average of 95.13 miles per day.

Road conditions were bad, owing to the immense rainfall in every part of the country. Many parts of the country, especially Manitoba, were turned into swamps and quagmires; this reduced the daily average considerably.

In addition to the 3,900 miles, 780 miles were covered under other than the car's own power, owing to the absence of trail or road; this applies particularly to New Ontario. As far as North Bay no shipping had to be undertaken, although this was the first car that had ever come through all the way from Halifax to that point.

At first it was not difficult to keep up an average of 120 miles a day, but from the prairie provinces on this was reduced to as low as sixty miles. The highest daily run was made in Alberta—185 miles, between Maple Creek and Lethbridge; the lowest in Manitoba—14 miles, from Winnipeg to Headingley, owing to the wretched state of the gumbo roads.

The car was running an average of ten miles to the gallon, sometimes as much as fifteen miles was made to the gallon, but in some parts of British Columbia five miles to the gallon was good going. The number of broken links in the road through British Columbia necessitated running on the ties in some places; taking a steamer on Kootenay Lake on another, and running for a few miles through the United States in another place.

The cost of crossing from Halifax to Vancouver averaged about \$5.50 a day per person. The expenses of the car were about \$5.00 per day, exclusive of repairs. On two occasions the trip was delayed owing to injury to the car, but had great advantage in having been twisted.

The gumbo roads of Manitoba were in such bad condition that the drivers went on strike in Winnipeg, causing a three days' delay. Owing to the absence of roads many detours had to be made, amounting to 680 miles altogether, of which 300 were in Ontario and 300 in British Columbia.

The enthusiasm for the Canadian Highway all along the road was marked. Towns and cities did their best to welcome the pathfinder and, besides presenting pennants of their town and entertaining the motorist, passed resolutions pledging unqualified co-operation in any scheme for the Canadian Highway from coast to coast.

Chains were seldom used. Block and tackle were used in requisition. On one occasion a bridge had to be built to get the car over, and teams were necessary to pull the car out of the bad spots.

The motorists, however, were always able to get shelter for the night and never lacked food or gasoline.

Scarcely any macadam roads were found on the journey, the majority was earth and the rest gravel. The best roads were in the British Columbia and in Ontario, the worst in Manitoba, the earth roads of the Maritime Provinces and Alberta and Saskatchewan were of about equal merit.

Newspaper Laws

1—A postmaster is required to give notice by letter (returning the paper does not answer the law) when a subscriber does not take his paper out of the office and state the reasons for not being taken. Any neglect to do so makes the postmaster responsible to the publisher for payment.

2—If any person orders his paper discontinued he must pay all arrears due or the publisher may continue to send it until payment is made and collect the whole amount whether the paper is taken from the office or not. There can be no discontinuance until payment is made.

3—Any person who takes a paper out of the postoffice, whether directed to his name or not, or whether he has subscribed or not, is responsible for the pay.

4—If a subscriber orders his paper stopped and the publishers continue to send, the subscriber is bound to pay for it, if he takes it out of the postoffice. This proceeds upon the ground that a man must pay for what he uses.

5—The courts have decided that refusing to take newspapers or periodicals from the postoffice or removing or leaving them uncollected for a prima facie evidence of intentional fraud.

New Ministers Are Sworn In

Hon. Robert Rogers Becomes Minister of Public Works in Succession to Hon. F. D. Monk and is Succeeded by Hon. W. J. Roche as Minister of the Interior.

Ottawa, Oct. 29.—At noon today His Royal Highness the Duke of Connaught at his office in the east departmental block, administered the oath of office to Louis Coderre, member for Hochelaga, secretary of state to succeed Hon. W. J. Roche. The administrative oath was also administered to Hon. Robt. Rogers as minister of Public Works in succession to Hon. F. D. Monk and to Hon. W. J. Roche as minister of the Interior.

This completes the cabinet rearrangement made necessary by the resignation of Mr. Monk. The writ for the by-election in Hochelaga division, Montreal, where Mr. Coderre will seek re-election will be issued without delay and the voting will be over before the House meets on November 31.

There is still some speculation as to why L. T. Marchal at the last moment stood aside for Mr. Coderre. It was said that objection was taken to Mr. Marchal entering the cabinet as a representative of the district of Montreal and representing Chateaufort constituency in the Quebec district.

It is understood that Dr. Paquet, chief government whip for Quebec, has placed his resignation in the hands of Premier Borden.

Sherman Is Dead After a Short Illness

Utica, E. V., Oct. 30.—After a long illness, Vice-President James Scherer Sherman died at his home in this city at 9.42 o'clock tonight of uremic poison, caused by Bright's disease, complicated by heart disease and arteriosclerosis. He had been sinking since early morning, and it was realized that death was a question of only a few hours. There was slight relief shortly after seven o'clock, caused by an apparent improvement in the condition of the kidneys, but it did not prove real or lasting, and at least gave only temporary hope. At nine o'clock the temperature rose to 106. From that time the condition rapidly passed from bad to worse until the end. He was unconscious when the end came. All members of the immediate family were there to witness the final scene.

City Planning Convention

There is to be a City Planning Convention held in Edmonton on November 15th and 16th. Mayor George Armstrong, of Edmonton, is Vice-President of the City Planning and Housing Association of Canada and it is through his initiative that the convention has been called.

Every city and town in Alberta has been invited to send delegates to the convention, and a large attendance is expected and particularly desired since the convention energies will be strongly directed toward securing legislation that will enable cities and towns to control the disposition of land and buildings in and about the several communities in such a manner as will lend itself to growth along good lines. Such legislation as this has been adopted by Nova Scotia and New Brunswick and, to some extent, by Ontario. A bill looking toward a like end is being prepared by the City Planning Commission of Winnipeg, and the Edmonton convention will take up its work with all of this as a guide. The proposition is an important one, particularly at a time when so many Alberta cities and towns are in a formative stage and where so much of future development along economical and thoroughly good lines depends upon what is done now.

A number of prominent men have been invited to address the Edmonton convention, including Ex-Mayor E. S. Sanford Evans, of Winnipeg, President of the national association of city planning, Dr. A. J. Douglas, Medical Health Officer of Winnipeg, Mr. Clifford T. Jones, of Calgary, and others who have made considerable inquiry into the theories and practices of city planning.

MR. J. S. WILLISON ON OUR FUTURE

With Land Trading Gone, Industrial Supremacy is Necessary to Permanency.

"Eventually the cities, towns and villages of the West will require industries to give employment to their workmen, to provide trade for their merchants, to stimulate their various local activities and to ensure their progress and maintain their prosperity."

This passage is from a recent address by Mr. J. S. Willison, Toronto, before a Canadian Club at Winnipeg. He had pointed out that eventually there would be a decline in immigration, in land trading and in all the activities which arose from rapid increase in population. To take their place there must be industrial activity if progress was to continue.

"Without protection no nation ever achieved any considerable industrial supremacy," said Mr. Willison. "It may be that free trade is the true faith for a perfect world but either the faith is weakly held or the world is still very imperfect. I submit that protectionist duties were not imposed on Canada and have not been maintained for the special or exclusive benefit of manufacturers. Protection was established for a great national object just as certainly as the Canadian Pacific Railway was constructed for a great national object."

"By no force of logic, or effort of persuasion or act of parliament can you induce a whole people or even all the members of a single family to follow agricultural pursuits. In every family of three sons, only one will devote themselves to commercial or industrial vocations. For example between 1900 and 1910, notwithstanding the wide extension settlement in Western Canada, the rural population will follow population increased by 16.48 per cent. and the urban population by 63.83 per cent. while the total rural population is 3,241,083 as against an urban population of 2,324,641.

Growth of the Population. "In Eastern Canada the increase of rural population was 1.6 per cent. and of urban population 43.3 per cent. In Western Canada the increase of rural population was 13.1 per cent. and of urban population 24.2 per cent. These facts at least prove the contention that only a percentage of the population will go upon the land and it follows that the vast majority will be engaged in those for whom we do not provide employment in mercantile and industrial pursuits.

"Under the conditions which obtain in Canada with moderate protectionist duties industries will follow population as under free trade Canadians would go to the industries of the neighboring country. It is only by a judicious system of protection that we can conserve our resources and resources which under sound policies of legislation and administration become chief sources of public revenue and the support of great industrial communities.

"Do you believe that the industries of older Canada could thrive if they were exposed to the unobstructed competition of the highly specialized and heavily capitalized industries of the United States? Manufacturing for a protected market of ninety millions of people, or do you believe that against such competition any considerable number of industries could be established in the west in this generation? In the United States for nearly half a century the chief agricultural states have been protectionist strongholds because they desired that their sons should have ample choice of a vocation and employment in their own country, because they believed that grain prices for exports were determined by the markets of Europe, and because they believed that any burden imposed by protection was offset by the higher prices of local markets, that local markets were essential to profitable general farming, and that farming devoted to a single staple product could never be a permanent condition.

"This may or may not have been sound reasoning but if it was influential with American farmers under a very high tariff it may have significance for Canadian farmers under a very moderate tariff and particularly for western farmers whose prosperity will increase with the increase of home markets.

"Is it conceivable that by legislation you could create a separate free trade area in the United States, and maintain its population and prosperity at the level prevailing in the surrounding protectionist country or that the Canadian west can have wide diversified industries, a thrifty and independent agriculture, eager local markets, busy factories and well paid mechanics, and prosperous merchants if we deliberately determine that it shall be an industrial dependency of the Republic?"

By all means let the pace of railway building be kept up for years, and let the railway companies make no pause in the work of increasing their equipment and improving their lines. But the necessity for the farmers to throw their grain incompetently into the channels of transportation in order to obtain the money they require ought to be made a thing of the past. Farm granaries, local elevators, and bank advances on individual farmers' wheat holdings must be provided for.

Heavy Black Fur Overcoats

A WONDERFUL VALUE AT

These Coats are made of specially selected Goatskins, and for everyday winter wear, are the cheapest and most serviceable coat you can buy---They are dyed a deep brownish black and have a warm quilted lining, high black roll collar and barrel fasteners; in all sizes from 40 to 48. (Signed) MRS. A. R. STENT, FRED L. RAY, Proprietors.

IN THE SUPREME COURT OF ALBERTA, JUDICIAL DISTRICT OF WESTERN.

Before His Honour Judge Lees, a Local Judge in Chambers. Monday, the Twenty-First Day of October, A.D. 1912.

Between—

Charles Larke, Plaintiff

—and—

Henry Aho, Sawyer Massey Company Limited, J. H. Killick, The Atlantic Refining Company and Bawthelmier & Sons, Defendants.

UPON THE APPLICATION OF the Plaintiff, upon reading the affidavit of A. G. A. Clowes, Sheriff's Officer, and upon hearing counsel for the Plaintiff—

1. IT IS ORDERED that service of a copy of this Order and of the Writ of Summons and Statement of Claim in this action, by forthwith sending the same in a registered letter, post paid, prepaid, addressed to the Defendant Aho's wife, Mrs. Henry Aho, at Everts, Alberta, and publishing this Order together with the Notice hereon endorsed for three issues in "The News," being a Newspaper published in the Town of Red Deer, shall be deemed good and sufficient service of the said Writ of Summons, Statement of Claim and of this Order upon the said Defendant Aho.

2. IT IS FURTHER ORDERED that the said Defendant do appear to the said Writ of Summons within thirty days after the last publication of this Order and the Notice above said in "The News."

3. IT IS FURTHER ORDERED that the costs of this application be costs in the case.

WM. A. D. LEES, L. J., S. C. A.

Entered this 26th day of October, A.D. 1912.

F. S. SIMPSON, Deputy Clerk.

NOTICE OF ENDORSEMENT ON THE FOREGOING ORDER.

THIS ACTION IS brought to recover—

1. Payment of \$1148.90 with interest from the 15th day of July, 1912, according to the terms of the mortgage given by the said Aho to the Plaintiff on the North West Quarter of Section 32, Township 35, Range 2, West of the Fifth Meridian, in the Province of Alberta, and in default sale or foreclosure and possession.

2. An Order for personal payment against the defendant Aho for the said sum and interest.

TURKEY ON HER KNEES

Bulgarians Victorious and Turks in Retreat

London, Nov. 1.—From every capital in Europe comes the news that Turkey is on her knees already to sue for peace.

The Bulgarian forces have gained a complete victory over the main Turkish army, numbering between 150,000 and 200,000 men, which was beaten in a battle between Serai and Lule Byrgas and is retreating in disorder on Thauria in the north.

While the report of the great Bulgarian victory is not confirmed by Constantinople, all reports agree that the Turks have suffered a disastrous reverse.

Late last night it was announced that Constantinople was in peril of being captured by the Bulgarian forces, the great powers would intervene at once to force peace but the danger which they are facing is that Bulgaria, Serbia, Greece and Montenegro, having won all along the line, will absolutely decline to accept interference by the European nations which were unwilling to meet upon justice before the matters in dispute were submitted to arbitration.

A Vienna news report that the Italian allies, victorious in one of the swiftest wars in history, while it cost many thousands of lives, has been brought to a successful conclusion by the brilliant strategy which has amazed the world, are determined that they will dictate the terms of peace without outside interference in the capital of the Turkish empire, Constantinople, where, according to the latest information, as a result of the rout of Nazim Pasha's splendid army, the council of ministers is considering how to stop the hostilities before the guns and the allies reduce the seat of the Padishahs to ruins.

Athens, Nov. 1.—The Turkish battleship Fethi-Bulend was sunk during last night in the gulf of Salonika by a Greek torpedo boat. The Greek commander's daring enterprise was carried out under the guns of the Turkish fort without being observed and the torpedo boat escaped unscathed.

Sofia, Nov. 1.—The Turkish cruiser Hamid discharged nine shells yesterday at the Cape Mine lighthouse between the Bulgarian ports of Burgas and Esmirna. The lighthouse was damaged. The Bulgarian government intends to protest against the bombardment of a building devoted solely to peaceful purposes.

Sofia, Nov. 1.—Details thus far of the route of the immense Turkish army by the Bulgarians show that the Bulgarian forces numerically were far inferior. The Turkish army is reported to have aggregated 200,000 men. It included the garrison which had retreated from the captured fortress of Kirk-Kiliseh as well as the main body of the Turkish troops which had advanced from Constantinople. It comprised practically the whole of the Turkish troops remaining in Europe apart from the garrisons of Adrianople, Salonika, Monastir, Janina, Scutari and a few other towns.

This great army was under the personal command of Nazim Pasha, minister of war and commander-in-chief of the Bulgarian army, who preceded by the main Bulgarian army in fighting formation.

The fight opened with the discovery by the Turks of a number of Bulgarian cavalry scouts. The Turks drew in their outposts, and these were closely followed by lines of Bulgarian infantry, who were preceded by the main Bulgarian army in fighting formation.

THE TURKS FIGHT DESPERATELY. The battle which was fought in the last several days and resulted in the defeat of the Turks was soon in progress all along the line.

The Bulgarian troops repeatedly delivered fierce attacks, sometimes at one point, sometimes at another, along the Turkish line extending from Lule Byrgas to Serai.

The Turkish troops offered desperate resistance, but were unable to withstand the onslaught of the impetuous Bulgarians, and finally they turned and fled in great disorder to ward Thauria in the north.

The losses of the Ottoman army are reported to have been enormous in dead, wounded and prisoners as well as ammunition and supplies.

London, Oct. 31.—A four days' battle in Thrace has ended in the triumph of the Bulgarian commander-in-chief, General Savoff, whose skilful strategy has probably brought to a close one of the shortest and most remarkable wars on record.

A great Turkish army, estimated at over 200,000 men, has been defeated and is retreating. Constantinople is believed to be at the mercy of the victorious Bulgarian army, and a council sitting at the Porte is discussing the advisability of suing for peace.

Such is the news which comes from Constantinople. It is only a fortnight since Turkey declared war. The first week of the campaign closed with the dramatic fall of Kirk-Kiliseh, fully revealing for the first time the disorganized and moral Turkish army. Today that army is defeated, routed within fifty miles of Constantinople, and possibly its retreat within the capital's line of defence is cut off.

Only the briefest and vaguest accounts of the great battle have been received, for the war has been especially remarkable is that not a single

war correspondent has been allowed at the front except in the case of the "Little Meander" campaign against Serai.

Thus no independent personal narratives of the absorbing events have been possible, and the world has had to depend on biased official accounts provided by the respective governments, or confused details supplied by wounded soldiers.

Apparently Nazim Pasha has been out-maneuvred by Savoff. The Bulgarian turning movement along the Black Sea coast now appears to have been a feint, which induced the Turkish commander to throw his main army to the eastward to such effect that the Bulgarian force on this side had the greatest difficulty in holding the Turks in check.

In fact, this point seems a little in the air. The Bulgarians gave way and thus enabled Nazim Pasha to report to Constantinople some success in this direction.

In the meantime, however, General Savoff hurled his great strength against the Turks' weakened left, which he crushed in at Lule Byrgas.

The fighting along the whole front, which evidently has been the most stubborn and determined character, was carried on day and night without intermission, and both sides lost heavily.

MADE BIG PROFIT

IN MIXED FARMING

A Saskatchewan Man Who Farms Wisely—Intensive Agriculture is Coming

That mixed farming in Western Canada pays is the test of an article in a recent number of "The Dominion." In proof thereof the writer gives the following instance among others:

"There's Erntman Tonn who bought a section of prairie land up in Central Saskatchewan, near my place, a while ago. At the same time he also took a homestead. Now he's in both kinds of farming. Last year's crop which he sold in October, brought him \$4,700.00—his wheat and oats of 300 acres. But he also raised stock, including horses, hogs and cattle that were worth at least \$5,000.00. That man would not take \$30,000.00 for his 800 acres."

Speaking of intensive farming in England he said:

"I think that in a great many ways they do things better in the Old Country, where the population is heavier and where the average farmer has to be content to get along with less land. They farm more intensively over there. In fact they tell me that many farmers over there produce as much in dollars and cents from ten acres as some of our farmers can get out of a whole quarter section. I wonder if the average farmer realizes that some of the richest farms in Western Canada—the farms that produce the striking results in dollars and cents—are striking examples of the most productive soil in the Dominion being used most unscientifically. Science will get its turn, however, as this land becomes more valuable. Instead of a comparatively small number of large farms which we have at present we are going to have a multitude of little ones."

KEEP CARS MOVING

How Business Men are Urged to Assist in the Movement of Grain

That the business men and manufacturers of Eastern Canada realize the necessity of providing all cars possible for the transportation of Western Canada's grain crop is shown by a circular sent out during the past month by the manager of the Transportation Department of the Canadian Manufacturers' Association to its three thousand members. After speaking of the danger of congestion this fall, the circular urges all manufacturers to assist in the movement of grain as follows:

"Upon the ability of the railways to move the crops promptly will depend to a great extent the business welfare of the country. Everybody can help by facilitating the movement of any cars he can spare or receives, namely, by loading and unloading expeditiously as possible. Every time the loading or unloading of a car is needlessly delayed the available supply of cars is correspondingly reduced. If a shipper by his own act reduces the available supply of cars he cannot very well complain of a shortage. Cars are furnished for transportation, not for storage, and every one used for storage reduces the number available for transportation. The annual crop movement around October 1st brings a car shortage lasting about four months; during the balance of the year there is usually a surplus. By moving as much as possible of your freight inwards and outwards within the next few weeks you will be helping yourself, the railways, and all others concerned."

The Mormon Peril

(Vanouver Sun)

Mormonism is forcing its way into Canada. An announcement has just been made by President Joseph P. Smith, whose headquarters are at Salt Lake City, Utah, that a temple is to be built at Raymond, in Alberta, at an expenditure of probably two hundred thousand dollars. The Mormon community in Alberta can easily afford to erect a temple at that cost. The settlement of the Latter Day Saints there is a most prosperous and progressive one, and as the church handles the revenues of its disciples it has become rich.

It may, perhaps, temporarily disturb the tranquillity of our slow-growing Canadian people to know that the announcement of the project of erecting this Mormon temple were made at Salt Lake City, and that the benefits which are to be reaped by this particular sect were dwelt upon by a society which has its headquarters in a foreign country. When we consider that the sentiment of the public of the United States has looked the Mormon church to colinize for its own protection, and that it is looking towards Mexico and Canada in the event of the impossibility of holding its own in the American republic, it is manifest that the people of this Dominion should exercise much prudence when confronted with any proposal to increase the population of the Latter Day Saints in this country.

We know that the European countries, where liberty of opinion and action are greater than they are on this continent, the authorities are forbidding Mormon missionaries the freedom allowed to other sects and are driving its active agents beyond their boundaries. In liberty-loving England there is a strong revolt against the proselyting methods of this society, which is accused of corrupting the minds of the female portion of the rural communities.

With the example of Great Britain, Germany and France before them, the authorities of this country should take some sort of action when the Mormon church is found striking its roots so deeply into the soil of Canada.

BECKER MAINTAINS THAT HE IS INNOCENT.

Ossining, N. Y., Oct. 30.—Former police officer George Becker, in Central Prison tonight under sentence to die in the electric chair during the week of Dec. 9, the convicted murderer of the gambler, Herman Rosenthal.

PILES

Nothing known to Science is better for this painful ailment than Zam-Buk. It reduces inflammation, stops bleeding, ends the agony. Easily applied and cleanly. Why go on suffering? Why not try it? Read the following cures.

Some Proofs of Zam-Buk's Power.

MR. THOMAS J. HOGAN, Champion Clog Dancer of Canada, 69 Chambliss Street, Montreal, writes:—

"For some time past I have been troubled with Piles, but this year I suffered so much that I was obliged to cancel a number of engagements. I tried all the so-called remedies that were recommended, but they seemed to do me no good. Having been advised to try Zam-Buk, I purchased a fifty-cent box and after applying it a few times I felt marked relief. I continued with the Zam-Buk treatment and the relief was extended into a permanent cure.

MR. WILLIAM KENTY, of Upper Nine Mile River, Hants Co., N. S., says:—"I suffered terribly from Piles, the pain at times being almost unbearable. I tried various ointments but all failed to do me the slightest good. I was tired of trying remedies when I heard of Zam-Buk, and thought as a last resource I would give this balm a trial. I procured a supply, and after a very short time Zam-Buk effected what several other ointments and medicines had failed to effect—a complete cure."

Zam-Buk also cures ECZEMA, BLOOD POISON, ULCERS, COLD SORES, CHAPPED HANDS, SCALP SORES, CUTS, BURNS, BRUISES, SCALDS and all SKIN INJURIES and DISEASES. All druggists and stores, or Zam-Buk Co., Toronto, post free for price. Refuse harmful substitutes.

LETTERS TO THE EDITOR

QUESTION OF MORAL REFORM
AND LIQUOR TRAFFIC.

The South African rugby football team are having a very successful time in England, having so far won four games right off the reel, but they have not yet met a representative team.

A large number of Red Deer sports journeyed to Calgary on Thanksgiving Day to see the boxing match in the morning and the rugby game in the afternoon, and there is no doubt they were well pleased with both events. The fight between Bayley and Hyland was a ding-dong affair, Bayley being knocked about very badly; but as he went the scheduled number of rounds, a draw was the only result possible.

The rugby game in the afternoon between the Edmonton and Calgary teams was a corker. The way each team got after the man or ball was not slow. It needed a strong man to umpire that game, and credit must be given to the referee, the people's "Hob," for the way he handled the game. He is not a man who is fond of whistle blowing, and does not like to stop the game for trivial offences which have no bearing on the result.

The Red Deer Curlers are about to get busy. There is a whisper that they will start off with a banquet. A good idea. We will probably be there. We would like to offer a suggestion—lower your subscriptions, if you can; if you cannot do so, have an honorary members' list, at \$5 each for those who are interested, but do not care to play.

The Canadian Horsemen are breaking away from the American Association. Something will now be done. We have a revolution of Red Deer being held up a few years ago by the American Association because they had not paid some fees or done something contrary to their laws. Canada is capable of running a Jockey Club, as it were, of her own. Perhaps Red Deer will now see a bit of real racing and less fixing, for we understand we shall be in the circuit.

Calgary papers report the spectators at the football match in Red Deer on Thanksgiving Day to number 500. Good, but not quite true. It is, was there of course. We have a long way off being done for yet. Oh yes, Brydie has found another star. He cannot be signed on yet.

Newcastle have spoiled Manchester City's unbeaten record by defeating them 1-0 in a terrific game.

H. W. Stevenson, the ex-champion billiard player, and by many considered the best all round player ever known, is going on tour with George Gray the Australian champion, and finest losing hazard player ever known. Stevenson was playing Cook a couple of weeks ago, and he scored 729 in one break, and later followed it up with a 1016 break. This break took 61 minutes to make, and it is the only break exceeding 1000 ever made under the existing rules. When the spot stroke was not barred, Peall made a break of 3304, while Gray has made 2196 by losing hazard play.

2000 Indians To Marry in a Body

The Winnegobies Decide on
Novel Wholesale Ceremony in Nebraska.

Winnegobies, Neb., Oct. 31.—The entire tribe of Winnegobies Indians has decided to get married. In formal council, recently, in which every male of the reservation participated, the Indians voted to forsake the ways of their fathers in the matter of matrimony and to marry in the white man's way. The action is to be retroactive, and now the Indians are preparing for the greatest "marriage feast" ever known.

As soon as the arrangements can be made, something like 1000 couples of Indians will stand up and be married at the same time and by the same ceremony. Double weddings are not common, triple weddings are rare, quadruple weddings are almost unheard of, and when the 2,000 Winnegobies stand up and joined, the marriage record of all time will be broken.

The Indians already are making great preparations for the event, but these will probably not be completed until next spring. No Indian tribe would miss an opportunity of this kind to receive presents. In fact, when the big wedding is over, the Winnegobies expect to be the richest tribe in the west. According to Indian custom, the giving of presents is a virtue, one of the greatest virtues.

Eckville

The Eckville Improvement Co. are asking for tenders for the building of a hall on Main St. It is hoped to have the building ready for this winter.

A. Litt, of the Co-Operative Co., is in Calgary on business. Mrs. Solberg, of Bentley, is with Mr. Olson at the hotel.

Mr. Matchett is erecting a new house on his farm. H. Palmer, the blacksmith, is being kept busy. Bring in your horse to get shod; he makes a first class job. Crops in the Eckville district are turning out a good grade. It is ideal weather for threshing.

and a detriment to the country. They also keep an army and navy at greater cost than the country can afford, and consequently the people are burdened with heavy taxes; the farms are nearly all mortgaged, and many farmers are running on the bums, and when they cannot borrow any more, they sink down in the proletariat to swell the ranks of the unemployed and militarism is the greatest, if not the sole, cause of it.

My roads in Denmark were generally good when we left, but they have been greatly improved. Nearly all country roads are macadamized and steam-rolled, and the most used are tarred to prevent dust. Bicycles are used by everybody, from little tots of five or six to old men and women of eighty or more. Another feature is the automobiles running everywhere on the good roads and not getting stuck in mudholes as here.

I had a chance to see several of the cooperative creameries for which Denmark is noted. The buildings are more substantial than here, but I saw none with better equipment than we have here in Red Deer. The winter in Denmark was raw and disagreeable, the thermometer seldom going below zero, but on account of the dampness we felt, the cold as much as here. The summer was wet and comparatively mild. The crops were good but difficult harvesting brought the quality down considerably. We left Copenhagen September 25th by train and ferry to Esbjerg, from there to Grimsby on one of the steamers running across the North Sea with butter and a very hard voyage with storm and rain from north. Then by train to Liverpool. Left Liverpool on Oct. 4th on the C.P.R. Steamer Empress of Britain; saw an iceberg south of Newfoundland. Landed in Quebec Oct. 11th after a stormy trip on the ocean, but on that splendid big steamer we did not feel the bad weather so much. We arrived in Red Deer, Oct. 17th, glad to be here and well pleased with our journey. You should have had this at an earlier date, but I have been busy getting things into shape again.

Yours truly,
A. P. OLSEN.

Have you heard about Peps? Peps is a new scientific preparation put up in tablet or pastille form, which provides an entirely new and effective treatment for coughs, colds and lung and throat troubles.

There is no connection between the lungs and the stomach. Suppose something were wrong with your stomach—any indigestion, or ulceration, or would you think of taking some medicine which went—not to your stomach, but to your lungs? Certainly not!

Why then, when your lungs and chest are affected, should you dose your stomach—an absolutely separate organ—with medicine? Is it not far better to treat the ailing organ direct?

Peps provides a direct treatment for coughs, colds, bronchitis, and all lung, chest and throat troubles. Peps is highly medicinal essence and contains no harmful drugs. It is condensed in a tablet form. You put a Peps on your tongue, and as it slowly dissolves, the volatile essences turn to the lungs. You breathe the remedy to your ailing lung direct—not swallow it to your stomach, which is useless. (See diagram.) The healing fumes, thus inhaled, bathe the diseased membrane of your breathing tubes and pass right on to the tiny passages of the lungs—where the cause of the trouble could possibly take.

Peps fumes are healing and antiseptic. They heal sore tissue and kill disease germs. Peps brings pine-forest fumes to your lungs, instead of you going to the pine forest. For that cold, that night cough, that chest trouble, which is not settling. (See diagram.) The healing fumes, thus inhaled, bathe the diseased membrane of your breathing tubes and pass right on to the tiny passages of the lungs—where the cause of the trouble could possibly take.

VARICOSE VEINS CURED

NO NAMES USED WITHOUT WRITTEN CONSENT.
Confined to His Home for Weeks.

"Heavy work, severe strain and evil habits in youth brought on Varicose Veins. When I worked hard the aching would become severe and I would have to stop work. I consulted a physician and he told me an operation was my only hope—but I dreaded it. I tried several remedies but none helped. I was told to try Dr. Kennedy's treatment. I commenced to use it and soon found it was a little better than any other I had tried. One day my legs were so sore that I was unable to move. I wrote them and got Dr. Kennedy's treatment. My recovery was somewhat slow and during the first month of treatment I was somewhat discouraged. However, I continued treatment for three months longer and was rewarded with a complete cure. I could only earn \$12 a week in a machine shop before treatment, now I can earn \$24 and save \$10 a day. I wish all sufferers knew of your valuable treatment." J. C. LOUET.

HAS YOUR BLOOD BEEN DISEASED?
BLOOD POISONS are the most prevalent and most serious diseases. They sap the very life blood of the victim and must be eradicated from the system. It will cure all complications. Beware of Quackery. It may suppress the symptoms—our NEW BLOOD PURIFIER cures the blood disease.

YOUNG OR MIDDLE AGED MEN—Impudent acts or later excesses have broken down your system. You feel the symptoms reaching over you. Mentally, physically and vitally you are not the man you used to be or should be. Will you heed the danger signal? Read our Blood Purifier. Have you lost hope? Are you tempted to marry? Has your blood been diseased? Have you any weakness? Use Dr. Kennedy's Blood Purifier. What has been done for you? Write for an honest opinion. Free of Charge. No matter who has treated you, write for an honest opinion. Free of Charge. Books Free—Reynolds, Macmillan & Co. (Illustrated on Diseases of Men).

NO NAMES USED WITHOUT WRITTEN CONSENT. PRIVATE. No names on boxes of envelopes. Everything Confidential. Question List and Cost of Treatment sent for FREE LITERATURE.

The annual meeting of the Alberta Land's Day Alliance will be held in the school room of the Leonard Gaetz Memorial Church, Red Deer, on Thursday, Nov. 7th, at 2 p.m. Mrs. G. W. Brown and Messrs. Youmans and Long are the delegates from Red Deer.

Ticket Agent Donnelly, of the C. P. R., has arranged, in connection with Eastern Xmas Excursions for the benefit of the Red Deer people, to run a tourist car from Red Deer to Toronto, leaving here at 6.30 p.m. Dec. 19th. People going on this year should keep this in mind.

Arthur A. Mann, of Aylmer, Ontario, is visiting his brother, James Mann, and his sister, Miss Hazel Mann. Mr. Mann is an experienced automobile and carriage painter and trimmer, and is so satisfied with the future prospects of the town that he has decided to remain here and open up a shop of this nature at once.

Automobile Owners—Having decided to open up a shop for painting autos, I would be glad to inspect your machine and give you prices for a job of this kind. Prices right. Thoroughly experienced, and satisfaction guaranteed. Phone No. 150. P. O. Box 261—Arthur A. Mann. Place of business announced next week.

Rev. E. G. Heaven, who has been conducting Episcopal services in the Lecheville district the past summer, left for Huron College, London, last week, to complete his studies. Charles Hives, lay reader of the same church, who conducted services in the Rocky Mountain House district, has returned to Alberta College, Edmonton South, to continue his studies.

S. O. E. meet tonight at 8 sharp.

Murphy's store is popular with the juveniles.

G. W. Smith is enjoying a trip to the coast.

Remember the bargains in hats and feathers at Mrs. Jarvis', over Shell's jewelry store.

C. J. Rutter, Senior, of Sylvan Lake, has been appointed a J. P. for that district.

Mrs. Harry D. McLean, Second Street North, will receive on second Wednesday of each month.

Rev. Mr. Locke, of Lacombe, and Mrs. Locke, have been spending a few days with Andrew Trimble and family at Clearview.

The doll has a number—you have to guess; the nearest guess to the doll's number takes the doll free—N. Murphy.

Bio. Halpin, J. P., Editor of the Lacombe Globe, was in town last Wednesday in connection with court business, and gave us a friendly call.

Rev. A. Barner, of the Industrial School, will preach at the Salvation Army, Sunday evening, November 10th, in the Orange Hall, 2nd Street North. Everybody welcome.

Miss McLennan, who has been visiting her aunt and uncle, Mr. and Mrs. T. A. Fee, at Vancouver, arrived in Red Deer Thursday last to join her father and mother, Mr. and Mrs. John McLennan.

Mrs. J. R. Cunningham has been visiting Mrs. Randall at Saskatoon, and Mr. Cunningham left to join his wife last week. They will visit friends at Toronto and Kingston, Ont., until after the holidays.

Kenny Campbell, the C.P.R. engineer who was unfortunate enough to have his arm cut off a few weeks ago through slipping from the engine, is fully recovered, and has gone for a trip to Cranbrook, B.C.

The Mock Parliament, in connection with the Young Men's Club, meets Thursday evening of this week in the basement of the Methodist Church. The Nationalization of Railways will be debated. Everybody welcome.

The choir of the Presbyterian Church have engaged the Schubert Symphony Club, of Chicago, for a splendid entertainment on Friday evening, Nov. 15th, in the church. Be sure and save this night. Full particulars next week.

Dr. A. B. Atherton, and wife, of Fredericton, N.B., were the guests of Mrs. G. U. Godd last week. Dr. Atherton is one of the leading surgeons in the Maritime province, and was the Liberal candidate in York last election. Mrs. Atherton is a sister of Mrs. Godd.

Councillor Byers took a trip in his auto out west to the lumber mill of his company, Wednesday last, with Mr. Pettipiece. Like the slippery track, it was easy going but hard getting back. A cry for aid came in over the wires on Thursday, and another car was dispatched in great haste to bring in the distressed chauffeur, who was rescued from his perilous predicament and restored to a life of usefulness without further mishap.

Willowdale Presbyterian Church was the scene of a very enjoyable event on Wednesday evening, Oct. 21st, it being the chicken supper given by the Ladies' Aid of that Church. The church was comfortably filled, and after all had done full justice to the chicken-laden tables, they were able to appreciate the short programme, which consisted of songs, speeches, readings, etc. Revs. Brown, of Red Deer, Wheeler, now of Provost, and Bowen, of Springdale, all spoke in their usual entertaining manner. The ladies will find the thirty-six dollars which were realized a considerable help in defraying the expenses consequent upon finishing the church.

A good story is going the rounds about a mid-air that happened four of Red Deer's leading citizens at Sylvan Lake last week end. It appears the said gentlemen seated themselves comfortably in a certain motor launch at 2.15 p.m. and sailed away along for about ten minutes. The weight of the party began to tell on the boat, and so, by way of settling even, the gas-line arrangement went wrong. Two of the party, under the able guidance of C. J. Rutter, Senior, made their way back to the starting point in a canoe, whereas after a perilous journey, they arrived very nearly all in the meantime the party left behind had found it necessary to light fire on the shore to keep away bears, jack rabbits and other wild animals. The relief party, under the guidance of Bloss Rutter, found them sitting alone at about 2.30 p.m. and brought them safely to harbor, where they related their terrible experiences to a sympathetic crowd.

SALVATION ARMY
Sunday, November 10th.

11 a.m.—Sister Millman and brother Lloyd in charge, holiness meeting.

3 p.m.—Brother Shelton and Sister Westgate in charge.

8 p.m.—Mr. A. Barner, of the Industrial School, will have charge of this service.

Girls get busy after that doll—N. Murphy.

Every purchaser of one box of toilet soap, or one box of Talcum Powder, will have a guess in the doll contest—N. Murphy.

For next two or three weeks we will clear out a number of our velvet and beaver hats, trimmed and untrimmed. Only a few leavers left; these are going at bargain prices—M. Jarvis.

Stephens' FLOOR PAINT
MAKES HOUSE-KEEPING EASY
It's the rough, splintery floor that is hard to keep clean.
Make it easy by applying a coating of Stephens' Floor Paint.
Sinks into the floor. Makes a smooth, hard, protected surface, that is easily kept clean. Brightens the house, lightens house work, and saves the floor at small cost to you.
Drop in and see our line of colors, we will gladly show them.

The Day Hardware Co.
WE STAND FOR PROGRESS

No Human Eye Is Perfect
YOUR EYES are just as likely to be in a bad condition as those of that friend who wears glasses.

One of these days your eyeballs may get painful or you may suffer from headaches, backache, the eyes or you may not see distant, or even near, objects clearly or the type in print may all run together or your eyes may get constantly blurred. It may then be too late. Now is the time to have your eyes tested. Come and see us today -- all examinations are free whether you buy or not.

If you wear glasses let us show you why OUR GLASSES are better than the ones you now use. There is a reason. Come in.
